

Dear Federal Colleagues,

Welcome to the Northern New Jersey Combined Federal Campaign (CFC) 2014-2015 campaign season! As we continue the theme **“Serving our Country and Supporting our Community”**, the important work of the CFC remains a valuable resource.

The Combined Federal Campaign which was implemented in 1961 by President John F. Kennedy, still serves as a central resource for over 30,000 federal employees to provide philanthropic service. The millions of dollars that have been raised in previous campaigns are a direct reflection of the generous contributions and the tireless efforts of the CFC coordinators and volunteers.

Your CFC contributions, made through payroll deductions, supports numerous services such as medical research, environmental quality, children and veterans' programs, community improvement, housing, advocacy, volunteerism, and the fight against hunger.

We cannot predict natural disasters or major life changes but we can rely and depend upon the services provided through the charities of the Combined Federal Campaign. Your contributions are greatly needed and appreciated. Please consider joining the CFC's continued efforts to assist those in need and improve our environment for the future.

Warm regards,

Andrea Lewis-Walker
